Parents are permitted on school grounds at the discretion of the school Principal. Behaviour by parents that could be reasonably expected to cause alarm or concern in the presence of staff, students, parents or visitors to the school will not be tolerated.

In such instances parents may be issued with a warning from the Principal about their behaviour. If the behaviour in question was to continue a parent’s right to enter the school ground may be revoked under the *Inclosed Lands Protection Act* (1901).

Green Valley Public School encourages and promotes the values of respect responsibility and fairness. We expect that all visitors to our school adhere to behaviour that reflects these values.
